→ TELELOGOS

- Nearly 30 years of experience
- More than 250,000 licenses in exploitation around the world
- Certified ISO 9001

TELELOGOS is a major actor in the following business sectors:

- Infrastructure and digital signage for points of sale and agencies
- Device management and synchronization for all types of mobile terminals (PDA's, Tablet-PC's, Laptops...)
- Data Flow automation, Machine2Machine and On-board computing exploitation

DEKRA Industrial
Managing a fleet of 900 PDA's and 100 Tablet-PC's

"Today, thanks to the investment made in MediaContact, we have optimized the reliability of recorded data and increased responsiveness when providing reports. These were our main goals".

Pierre Bonte
Dekra Industrial CEO

Administration and synchronization of 200 sales force Laptops

"In addition to the synchronization tasks it performs with perfection, MediaContact represents for us an enormous help in terms of administrating our remote devices. It allows us to offer mobile users a truly optimized medium, and the result is everyone wins."

Bertrand de Morel
Director of Information Systems DIM

Digital signage on the Graduate School of management campus

"We chose Media4Display because it perfectly satisfied our needs. In particular, we were able to use our existing PC's as players and we did not have to change the way we work. Furthermore, we were able to enrich our messages with multimedia content and target various programs on campus."

Yannick Roissé
Audiovisual Manager ESSCA group

Front Office Architecture and data exchange with terminals in 10,000 tobacconist/news-agents

"Within a few months, with MediaTransfer, we found many advantages over our previous architecture: speed and reliability of transfers have been improved, more frequent synchronization with the POS terminals allows greater responsiveness and our telecom costs were also considerably reduced."

Jean-Louis Bruneel
Logistics Sector Management ALTADIS
